Governor's Capital Budget Hearings

Tuesday, June 16, 2026

Capital Budget – Process Summary

- Facility Assessments and Technology Needs Analysis
- Scope Development, Initial Estimate, and Prioritization
- Agency Capital Improvement Project Request Forms (Due by May 31st)
- **Governor's Capital Budget Hearings** ← **We are here**
- Three Tier Prioritization
- Governor's List
- DPW Prepares Updated Estimates (for Non-IT projects)
- Capital Improvement Program Book (includes Facility and IT projects) (Due by Dec. 1st)
- Governor's Recommended Capital Budget Presentation (No later than Feb. 15th)
- Legislative Capital Budget Hearings
- House Bill 25

Summary of DAS Capital Requests

Total Request: $143.4 Mil

$5.0 ERP	$56.3 New Courthouses	$82.1 Deferred Maintenance
• ERP System Sustainability and Advancement	• Sullivan County New Courthouse • Salem Circuit Court New Courthouse	• Maintenance and Repairs of State-owned Facilities

Priority 1
$5 Mil

Enterprise Resource Planning (ERP) System Sustainability & Advancement

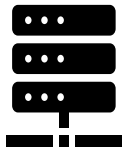

All **3 BRANCHES of government** use the State's ERP, NHFIRST

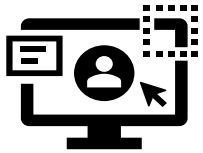

The ERP is EVER-EVOLVING: cloud updates, new interface files, new application programming interfaces, security, workflows, functionality

NHFIRST is a major **legal COMPLIANCE tool**: Federal and State law, Collective Bargaining Agreements

SUSTAINED investment ensures: continuity of core operations, legal compliance, system security and reliability, access to improved and new functionality

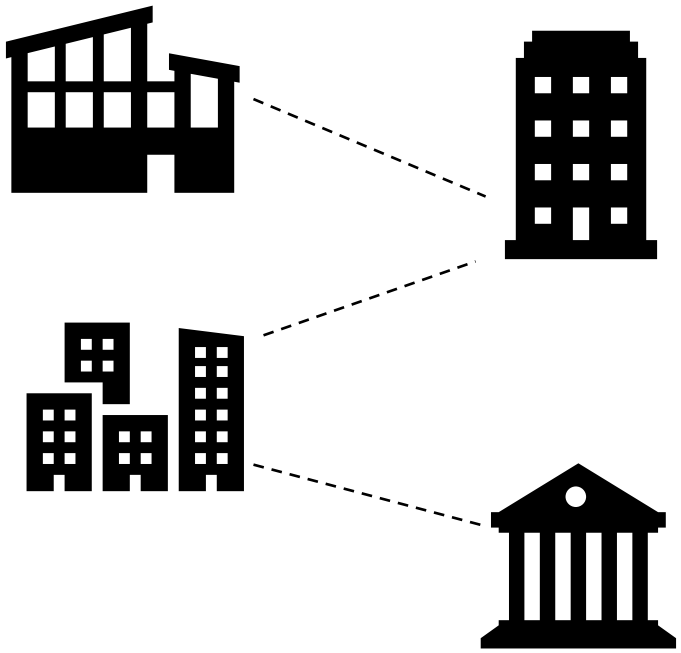

CORE FUNCTIONS:

- **Financial operations** (general ledger, accounts payable/receivable, billing, cash management, project accounting, asset management, financial and tax reporting)
- **Strategic Sourcing and Procurement** (requisitions, purchase orders, vendor management)
- **Budget** creation and maintenance
- **Human Resources** operations (recruiting, hiring/termination, benefits, time and attendance and leave)
- **Payroll** processing

About DAS – Division of Plant & Property

- Maintains and operates 96 buildings – Bureau of Court Facilities and Central Facilities Bureau
  - Office buildings, courthouses, support buildings – all branches, all counties
  - Not residential or institutional properties
- 220 positions – 124 full-time, 96 part-time
  - Janitorial, maintenance, security, grounds, skilled trades, and office staff
  - 19% of FT positions are currently vacant, 38% of PT positions are currently vacant
- Combination of in-house staff and contracted services to provide safe, efficient, and accessible space for state employees and the public

Facility Assessments

- Department staff complete a full evaluation each year on 96 buildings managed by DAS
- Assessment includes the condition:
  - building systems (ex. HVAC, fire suppression)
  - building envelope (ex. roof, windows)
  - life safety components (ex. generators, egress)
  - grounds (ex. parking lots, walkways, damaged trees)
  - aesthetics (ex. paint, carpeting)
- In early FY25, Facility Condition Assessments of about 40 facilities were performed by a hired consultant which has helped identify the most critical maintenance needs

Projects – Scope, Cost, and Prioritization

- DAS conducts an assessment of each facility's condition; a list of necessary projects is created
- A very rough "guesstimate" of cost is indicated
- Projects are prioritized within each facility and then across the bureau or agency as a whole
- RSA 490-B:4 Requires the Supreme Court to submit a report to DAS detailing the facility needs of court facilities. This is what is used to build the capital budget for the Bureau of Court Facilities
- Plant & Property also manages the capital emergency fund and the State Energy Management Office

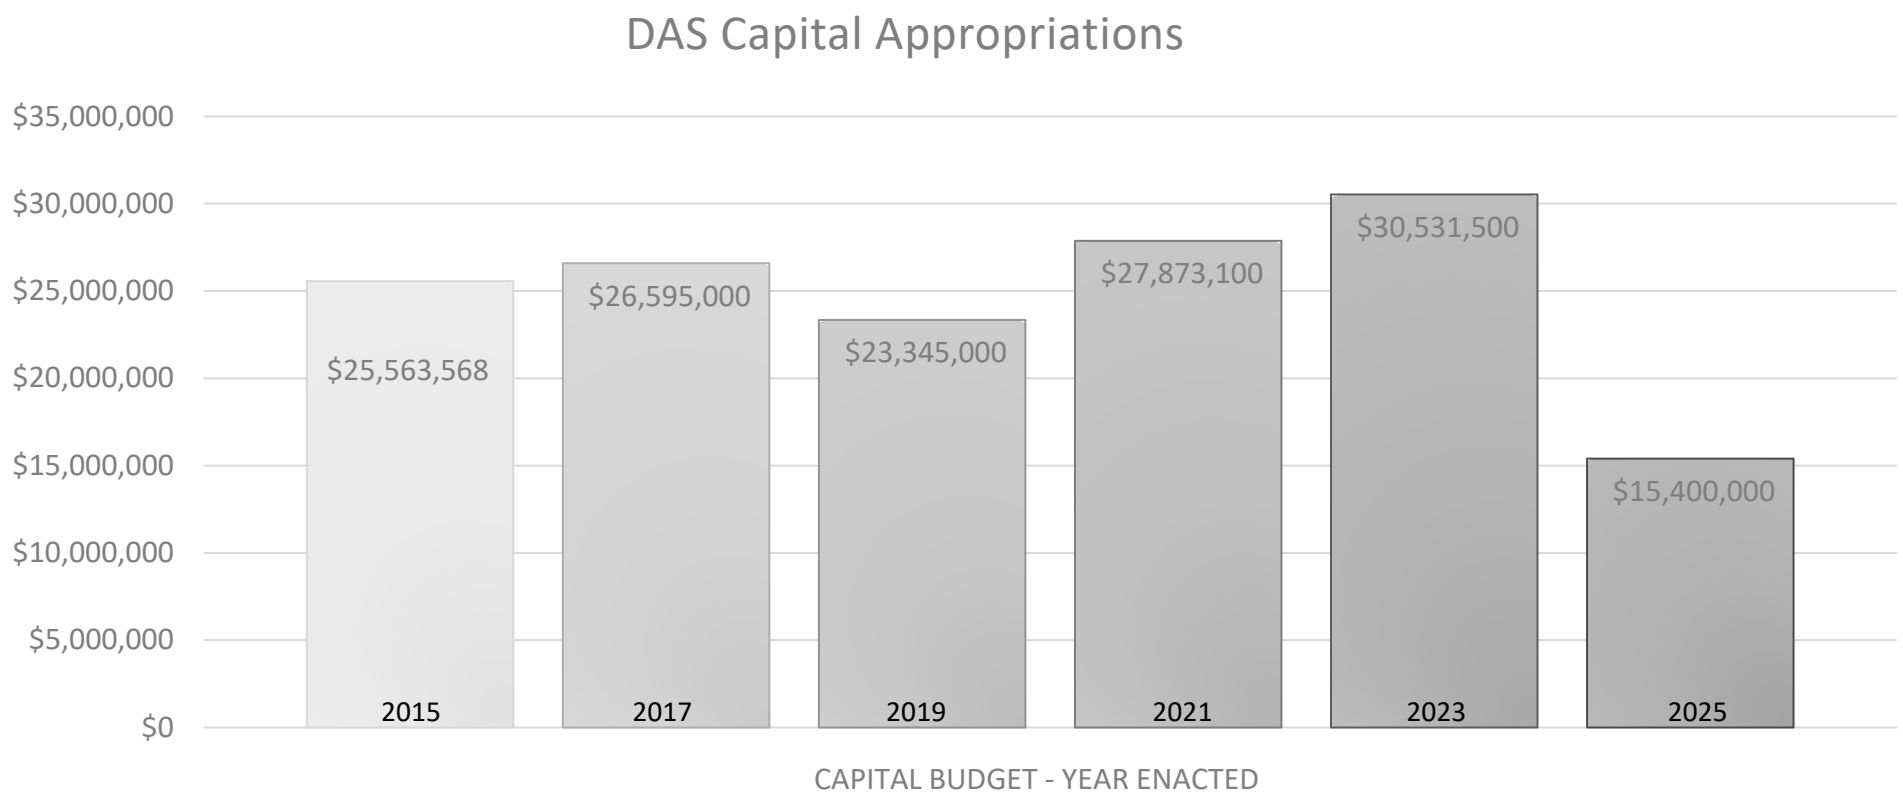

How do we prioritize?

There is no apparent end to deferred maintenance in our state facilities.

Our $140M+ in requests is in response to the following questions–

- What systems are likely to experience complete or near complete failure before the end of the biennium?
- Which failures could be tolerated versus which would cause disruption to the State's business?
- How much work can get done in a given biennium considering the resources within Plant & Property and Public Works?

Historical Comparison

DAS Plant & Property – Top 10

Project Name	Requested Amount	
Statewide Emergency Fund	$1,500,000	Statewide
27-29 Hazen – Main Switchgear	$3,000,000	CFB
Fire Alarm System Upgrades	$1,830,000	CFB
Morton Mechanical Repairs	$1,200,000	CFB
Sullivan County – New Courthouse	$31,882,665	BCF
Carroll County & Lebanon Boilers	$2,636,480	BCF
Hall Street HVAC Replacement	$2,650,000	CFB
Thayer Window Replacement	$1,100,000	CFB
State Library Elevator	$750,000	CFB
Statewide Energy Conservation Measures	$4,000,000	Statewide
